If you are using Microsoft Edge as your browser, you cannot add the Cite It widget to your browser toolbar. Instead, you will need to follow these instructions to add Cite It directly to a reading list:

Open the Cite It! window in Leganto -> Right click the Cite It! Button -> Click on ‘Add to reading list’:

This adds the Cite It! To the reading lists area of the browser.

To use it open the right panel, select the reading list area and click ‘Cite it!’
You will get the Cite It! popup on the screen:
