

## How to Install and Use the VPN Client on the iPad or iPhone

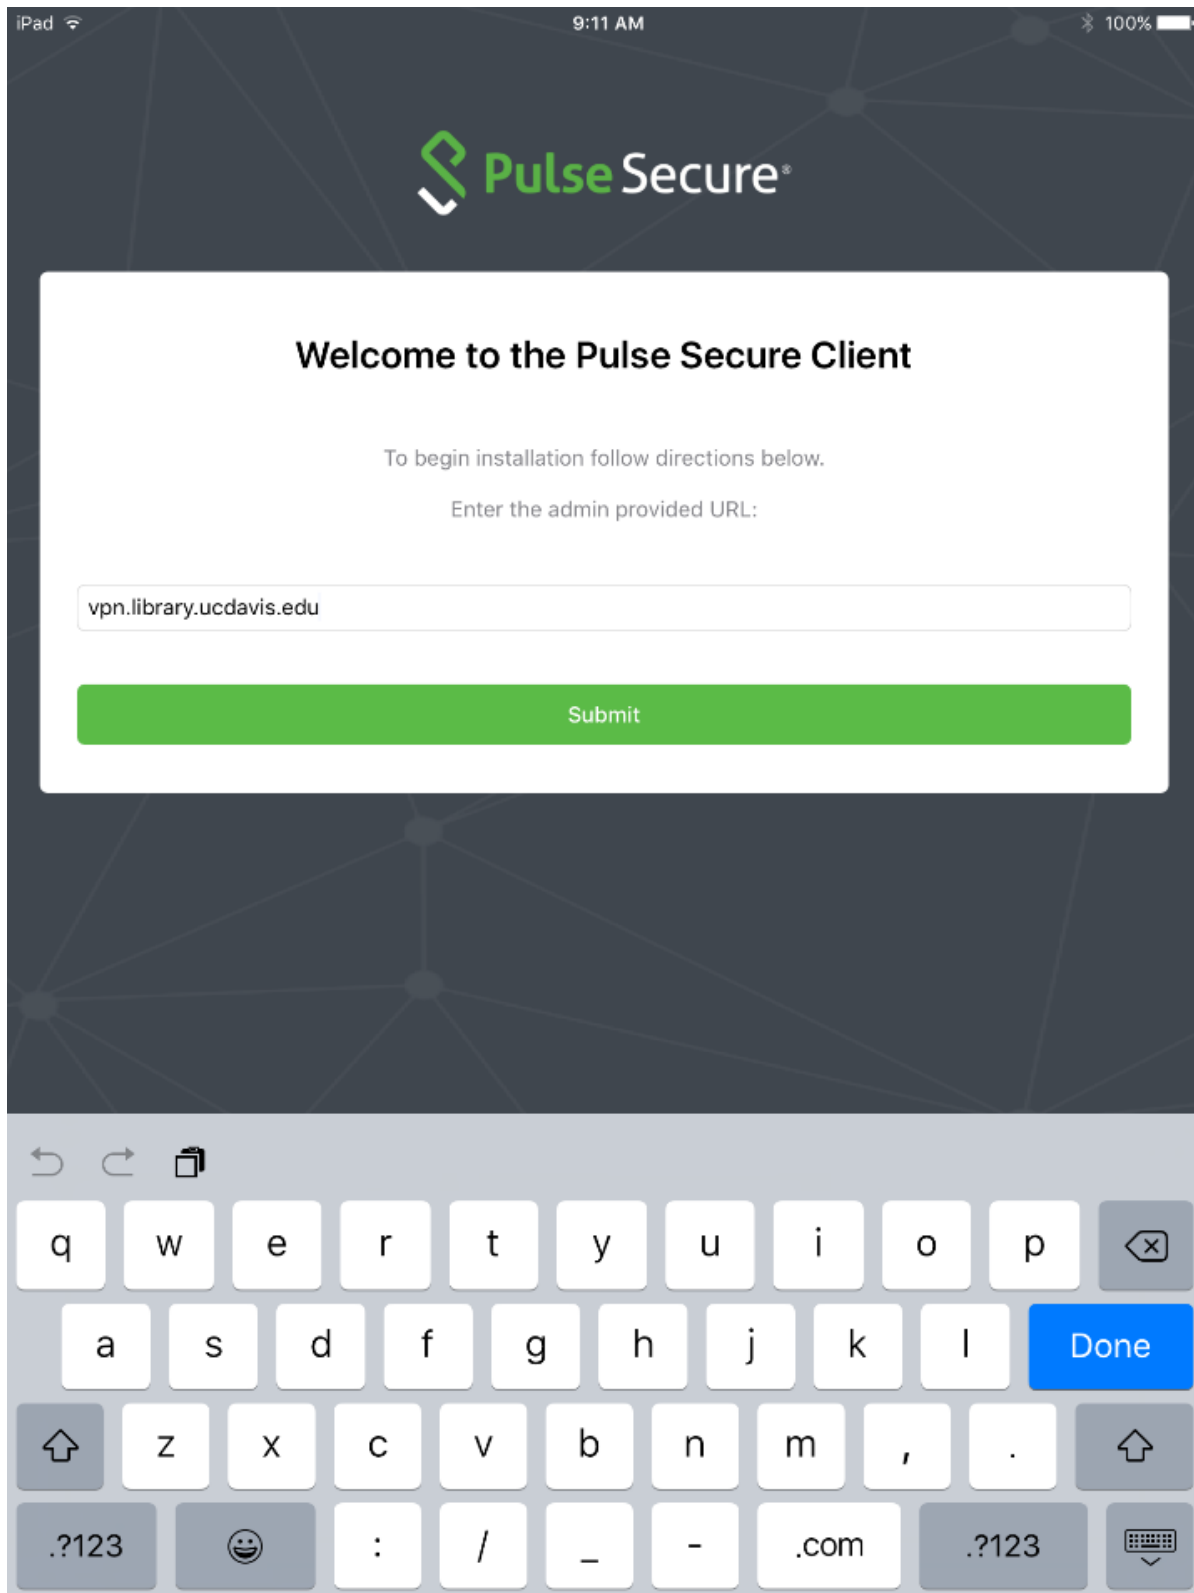

1. Open the App Store and search for "Pulse Secure"
2. Select the "Get" icon and then "Install" icon to download the app.

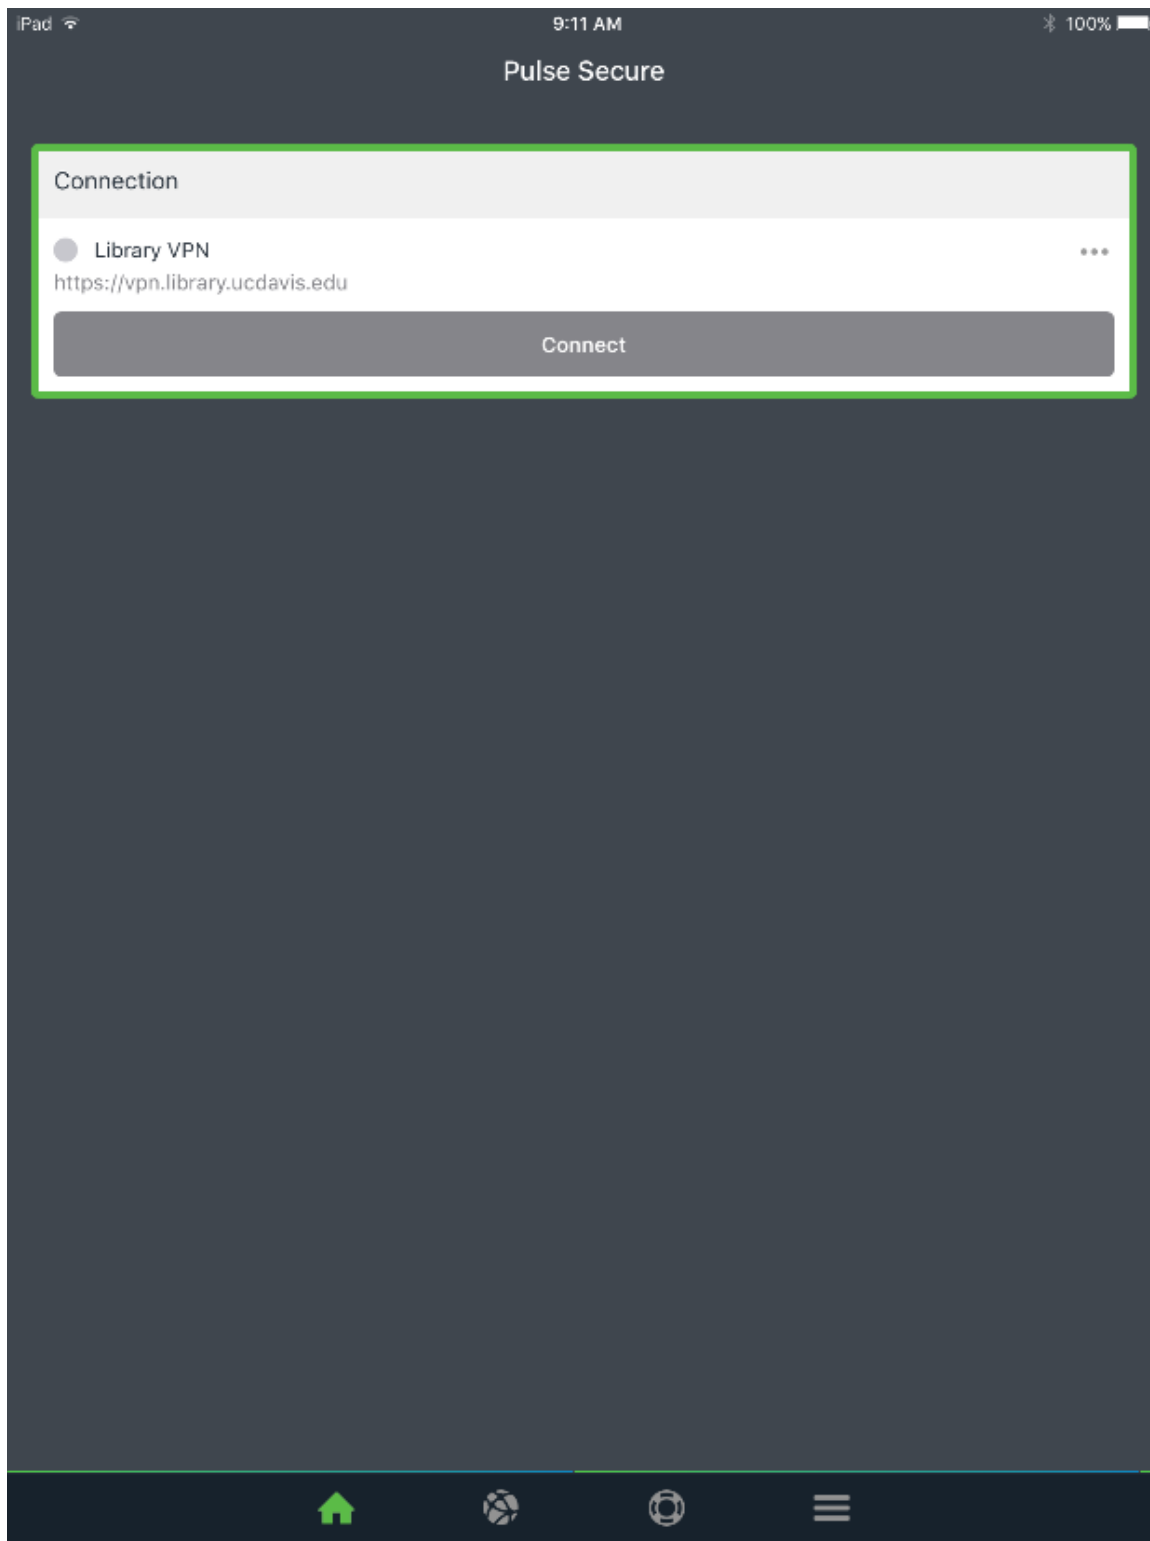

### 3. Open App when it is finished downloading.

4. Enter the following URL: `vpn.library.ucdavis.edu` into the box and submit.

5. Then, press the “connect” button.

6. In order to connect, you will have to enter your Kerberos ID and passphrase.
